Calamba, Laguna | 09912125283 | resureccionjustine@gmail.com | www.linkedin.com/in/justineresureccion

SUMMARY

My experience includes data processing, validation, and reporting support through my internship in the reinsurance industry, as well as frontend development through academic and personal projects. I have worked with technologies such as Laravel, Next.js, JavaScript, React, and Excel-based automation. I am passionate about continuous learning and applying technology to create practical and reliable solutions.

EDUCATION

National University Laguna

Bachelor of Science in Information Technology, Magna Cum Laude

July 2026

EXPERIENCE

Data Administrator Intern

Dec 2025 – Apr 2026

National Reinsurance Corporation of the Philippines

- Processed, validated, and maintained financial datasets using Microsoft Excel and Google Workspace while ensuring data accuracy and integrity.
- Conducted data quality checks and resolved inconsistencies to support accurate reporting and business operations.
- Applied Excel formulas, lookup functions, logical functions, and VBA macros to automate validation tasks and improve processing efficiency.
- Maintained tracking systems in Google Sheets to monitor workflow status and ensure timely completion of operational deliverables.
- Collaborated with business users and team members to troubleshoot data-related issues and resolve operational concerns.

Salesforce Supported Virtual Internship Program

Sept 2025 – Oct 2025

Salesforce

- Completed an 8-week virtual internship focused on Salesforce platform administration and development.
- Configured platform features involving data models, security settings, declarative automation, and Apex programming.
- Built solutions using Lightning Web Components (LWC) and Visualforce Pages.
- Completed Trailhead projects demonstrating practical implementation, troubleshooting, and platform configuration.
- Earned Salesforce badges including Agentforce Essentials and Agentblazer Champion.

PROJECTS

Frontend Lead Developer | Tara4a

Jul 2025 – Oct 2025

- Led frontend development while coordinating closely with developers to ensure stable system functionality.
- Identified, diagnosed, and resolved frontend issues reported during QA testing.
- Performed functionality validation and browser compatibility testing to improve system reliability.
- Worked with the development team to maintain application performance and responsiveness across multiple devices.

Frontend Developer / QA Tester | Geotrace

Aug 2024 – Mar 2025

- Developed frontend components for a web-based monitoring system integrated with Android devices.
- Performed functional testing, bug identification, troubleshooting, and issue resolution for both web and mobile applications.
- Collaborated with developers to implement fixes and improve overall application stability.

Multimedia Designer | AirSentinel | IoT Conference Philippines 2025

March 2025

- Developed multimedia presentations and technical demonstration materials for project presentation.
- Contributed to the development of AirSentinel, an air quality-focused IoT project recognized as one of the Top 15 Semi Finalist in PacketHACKS x Hack the Climate during the IOT Conference Philippines 2025.

Developer | NUForum

January 2024

- Developed and deployed NUForum, a web-based discussion platform, using AWS EC2 for cloud hosting and application deployment.
- Collaborated with team members to implement application features, resolve technical issues, and support system functionality.
- Utilized Git and GitHub for version control and collaborative development.

TECHNICAL SKILLS

- **IT Operations:** System troubleshooting, Root cause analysis, technical support, Process documentation, Quality assurance testing
- **Data Management:** Microsoft Excel (Advanced Formulas, Lookup Functions, Pivot Tables, VBA Macros), SQL (SELECT, JOIN, WHERE, GROUP BY), Data validation, Data quality assurance, Data reconciliation, Google Workspace, Report preparation
- **Web Development:** HTML, Tailwind CSS, JavaScript, React, Next.js, Laravel, MERN stack
- **System Networking:** Network Security fundamentals, AWS EC2, Git & Github

CERTIFICATIONS

- Information Technology Specialist in Network Security | Certiport
- AgentBlazer Workshop Completion Certificate | Salesforce
- IT Customer Support Basics | Cisco
- Certificate of Participation Semi-Finals Pitching & Demo 2025 | Packethacks
- Data Fundamentals | IBM
